With an impressive array of features and advanced functionality Indigo DQM is the ultimate Data Management and Reporting System and includes all the tools and functionality required for managing and processing data as a valuable asset and resource.

Data Security and Encryption

Featuring AES 256 Encryption your Data Assets can be stored and transmitted across the Internet / Cloud in the most secure way possible.

The Advanced Encryption System (AES) 256 is a symmetrical encryption algorithm that uses a 256-bit Encryption Key. It is accepted by the U.S. and Canadian governments as the most secure way to store sensitive Data.

With AES-256 bit encryption you can be assured that you will be the only one who can access your critical information.

Ultimate Data Compatibility

Indigo DQM represents the ultimate Data Management and Reporting System and is unique in its ability to support multiple Data Sources and Types simultaneously including Microsoft SQL Server, Microsoft Access, ODBC, OLEDB, MySQL, Oracle, Postgre, Firebird, XML, JSon and CSV.
